Mr. Richard Vanderhoof
Sales Manager
General Technology Applications, Inc. GTA
7400 Gallerher Rd.
Gainesville, Virginia 20155

Dear Mr. Vanderhoof:

Thank you for your letter of June 2, 1997 requesting Cummins policy on use of fuel additives such as your "GTA Fuel Enhancer".

Cummins Engines are designed to operate on commercially available fuels and lubricants without the use of any special additives. Specially treated fuels and lubricants are not used in engine development, thus it is not our policy to recommend or otherwise sanction the use of these chemicals or special additives.

Cummins Engine Company neither approves nor disapproves any product which we do not manufacture or sell. The use of non-Cummins products is at the discretion of the end-user, and any problems attributed to these products would not be recognized as a Cummins responsibility.

Our warranty covers defects in workmanship and/or material as manufactured and sold by Cummins; therefore, the use of any product sold in the marketplace not manufactured by Cummins would not affect our warranty. However, any engine performance problem or failure caused by products not manufactured or sold by Cummins is not considered by Cummins as a warrantable type of failure.

The Cummins name, various Cummins trademarks, and Cummins logo are the property of Cummins Engine Company, Inc. and are not to be used in advertising or promotional activity by anyone except with the express written authority of Cummins Engine Company, Inc.

Nothing in this letter is to be construed as authorization by Cummins Engine Company, Inc. to use the Cummins name, trademark or logo in the sale or promotional activity of any product.

Very truly yours,

A handwritten signature in cursive script that reads "Carl A. Koontz".
